

THE SOUNDMAKERS

# PREMIUM PR:O MOVE 8

**MOVE IT! >**

## The battery-powered all-rounder

HK Audio is expanding the PREMIUM PR:O series with the addition of MOVE 8, a battery-powered multifunctional speaker. Numerous innovative features make MOVE 8 the ideal partner at parties, for DJs, musicians and even professional rental companies, especially when there is no power supply available but the highest audio quality and high endurance are required.

- Familiar PREMIUM PR:O sound with balanced full-range reproduction for high speech intelligibility and fatigue-free listening
- 4-channel mixer with inputs for a microphone, line signals and an instrument, with a useful 2-band EQ and reverb for each channel
- Switchable guitar speaker cabinet simulations from Celestion
- Bluetooth 5.0 audio streaming
- Free App for iOS and Android for additional functions (karaoke and guitar effects) and use as a remote control
- Up to 11 hours of operation
- Hot swap function, allowing for uninterrupted battery changes and virtually endless sound enjoyment
- Sturdy, lightweight and low-resonance wooden cabinet in a multifunctional format, which can also be operated on speaker stands or as a horizontal monitor
- 5-year warranty (after registration)

With MOVE 8, HK Audio is catering to the trend towards truly mobile battery-powered PA speaker cabinets. The sound quality and features meet even professional demands. This makes the new PREMIUM PR:O MOVE 8 the first choice for a variety of applications away from a power outlet.

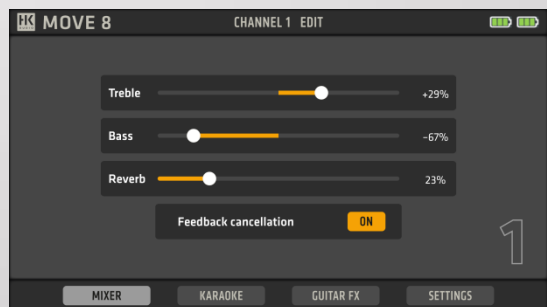

# B2B INFO: PREMIUM PR:O MOVE 8

**MOVE 8 is built on transparent full-range sound, musician-oriented features, innovative battery operation and straightforward design.**

- 1" driver with horn for fine resolution up to 20 kHz and a dispersion of 70° x 70°
- Highly efficient 8" bass/mid-range speaker for powerful reproduction with low energy consumption
- Sturdy, lightweight and low-resonance MDF cabinet with robust metal grille
- 4-channel mixing console with master control. Inputs: 2 x Mic/Line, 1 x Instrument and 1 x Bluetooth/Aux
- Direct access to EQ and reverb for channels 1-3 (no App required)
- Authentic, original Celestion guitar cabinet simulation switchable on the instrument channel, allowing for the connection of guitars and effects devices
- MOVE 8 REMOTE App for smartphones and tablets (available on iOS and Android) offers additional features and remote control
- Karaoke function (vocal cancellation, transpose),
- Choice of three Celestion speaker models (Celestion Greenback, Celestion Blue, Celestion Vintage 30)
- Guitar effects (tremolo, chorus, flange)
- 3 storable user presets via the App
- Space for two batteries: can be operated with one or two batteries
- 2 batteries supplied
- Tool-free, uninterrupted battery changes possible during operation; even Bluetooth audio streaming can continue simultaneously
- Battery can be charged both in the MOVE 8 and using the optional quick charger
- Universal external mains adapter, which can be used for both the MOVE 8 and the quick charger

MOVE 8 REMOTE app:

A free App for MOVE 8 is available on iOS and Android. This extends the range of functions – as well as the possible uses – of MOVE 8. At the same time, the App can be used as a handy remote control for MOVE 8.

# B2B INFO: PREMIUM PR:O MOVE 8

Facts & features	Description	Benefits
Dual battery slot	Can accommodate two batteries	Battery can be changed on the fly: while one battery is still powering MOVE 8, the other can be changed without any tools and without interrupting operation
Highly efficient speaker and electronics	The high efficiency of the components ensures high sound pressure at low energy consumption	High volume combined with long battery life enables powerful and impressive performance
Integrated 4-channel mixer with Bluetooth audio streaming and master volume	Two channels with an XLR/jack combo socket for microphones and line signals (e.g. keyboards), a high-impedance instrument input and switchable cab simulation (for electric guitar), plus an aux input for DJ equipment or MP3 players, which simultaneously controls Bluetooth audio	Direct access to EQ and reverb on channels 1-3 even without the App. Therefore, no complex searching in a menu structure is necessary. For most applications with a microphone, keyboard, acoustic guitar or DJ equipment, no external mixing console is necessary. Thanks to the switchable cab simulation, guitar pedals connected to the instrument input sound authentic. The Master Volume control allows convenient control of the overall volume
Wooden cabinet	Low resonance, light and sturdy MDF cabinet	Dry and clean bass reproduction, low weight, high stability, "professional" look
Multifunctional cabinet with speaker stand flange	MOVE 8 can be used either horizontally on the floor or positioned on a speaker stand	The perfect position for every situation: placed horizontally on the floor during a street performance, MOVE 8 simultaneously serves as a monitor and a PA for the audience. In outdoor DJ applications, MOVE 8 can be positioned vertically on a table or wall. For speech applications, it can be positioned at an ideal height using a speaker stand
Quick charger available as accessory	Charges a battery in about 2 hours	Batteries can be charged externally and can also be changed without interruption thanks to the dual battery slot. This allows continuous operation with only two batteries
Powerful external mains adapter	The external mains adapter can be used to power MOVE 8 and also charge the batteries while MOVE 8 is in use	It does not matter whether MOVE 8 is in operation when charging the batteries or not. You can use MOVE 8 powered by the mains adapter at full power and at the same time charge the batteries without any loss of performance
MOVE 8 REMOTE App for iOS and Android	The free MOVE 8 REMOTE App for IOS and Android provides extended functionality and enables remote control of MOVE 8. It is available for both tablets and smartphones	The free App can be used to control all the channel settings (EQ, reverb, volume) as well as the master volume. In addition, a 2-band EQ is available for channel 4 (Aux/Bluetooth), and the karaoke function can be activated for Bluetooth audio streaming and Aux In including vocal cancellation and transpose. The integrated effects (chorus, tremolo, and flange) as well as the 3 Celestion cab simulations can be selected on channel 3 and can be used to optimize the sound of an electric guitar, for example. All EQ settings can also be stored and quickly recalled
5-year warranty (after registration)	5-year warranty after product registration	Extended warranty for customers

## MOVE 8 REMOTE App

The MOVE 8 REMOTE App is not just a remote control for your MOVE 8 – it also adds some sophisticated features that will amaze you.

The following functions are added or enhanced by the App.

### Guitar cab simulation

There are 3 original Celestion Impulse Response options for you to choose from: Celestion Greenback, Celestion Blue and Celestion Vintage 30. Each of these world-famous guitar cab simulations brings its own advantages.

### Tremolo, Chorus and Flanger guitar effects

The integrated guitar effects offer a very authentic sound without any additional effects devices, thereby ensuring even more flexibility.

### Karaoke function

Vocal cancellation and transpose create a versatile Karaoke effect.

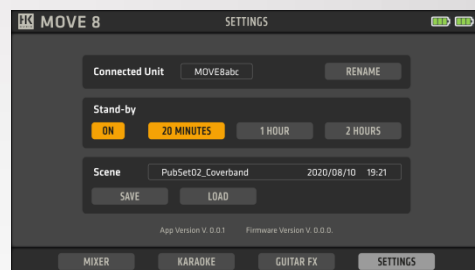

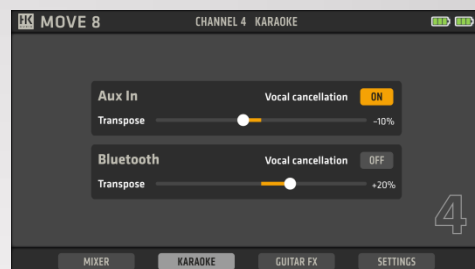

### Storable presets

All EQ settings and effect parameters can be stored in 3 storage spaces.

### Remote function

All EQ settings and functions can be controlled via the App. In addition, a 2-band EQ is available for channel 4 (Aux In/Bluetooth).

Bluetooth 5.0 ensures a high range for streaming and remote applications.

## OPTIONAL ACCESSORIES

### Additional batteries

Each battery gives up to 5,5 hours of operation.

### External quick charger

Charges the battery within 2 hours using MOVE 8's external mains adapter. Thanks to the uninterrupted battery change, virtually limitless operation is possible with just two batteries.

### Carry case

The padded bag not only offers protection during transport – it can be used to carry MOVE 8 conveniently over your shoulder, keeping your hands free for any other equipment. The extra compartment offers space for the power adapter, spare batteries and quick charger.

# TECHNICAL DATA

MOVE 8	
Max. SPL peak @ 10% THD	123 dB half space
Frequency response +/- 3 dB	65 Hz – 18 kHz
Frequency response -10 dB	55 Hz – 20 kHz
Power amplifier output	60 W Class D
Run time	Up to 11 h (with two fully charged batteries)
Active protection circuits	Peak and RMS sound limiter (separated for HF and LMF)
Low/mid speaker	1 x 8", 1" voice coil
HF Driver	1", 1" voice coil
Horn characteristics	70° x 70°
Crossover frequency active	2.5 kHz
Audio connectors in	2 x XLR/jack combo in (Mic/Line), 1 x jack (Instr.), 1 x stereo mini jack Aux In
Audio connectors out	1 x stereo mini jack Aux Out
Equalizer	2-band EQ for channels 1-3 (channel 4 per app)
Effects	Reverb (channels 1-3); Celestion Impulse Response guitar cab simulation on channel 3
Setup angle	33°
Pole mount	1 x 35 mm
Carrying handles	1 SingleGrip, integrated
Housing	MDF
Surface	Black acrylic enamel
Front grille	1.5 mm metal grille backed with black acoustic foam
Dimensions (WxHxD)	29 x 41 x 28 cm
Weight	8.5 kg

Battery	
Capacity	5,200 mAh
Dimensions (WxHxD)	8 x 3 x 8.3 cm
Weight	250 grams
Charge time in MOVE 8	approx. 5 hours
Charging time with optional quick charger	approx. 2 hours
