

High-Level Seminar hosted by Mr Martin Hlaváček, MEP

The EU Farm to Fork Sustainable Use of Plant Protection Products Regulation (SUR) finally focuses on biological control. But how to achieve fast-track biocontrol authorisation including microbials? This High-Level Seminar will explore what regulatory measures are needed to fast-track biocontrol use

Thursday, 13 October 2022, 14.00-16.00 hours
Room SPAAK 5B1, European Parliament, Brussels; and online via Webex

Co-organised by the International Biocontrol Manufacturers Association (IBMA) and the Microbial Plant Protection Products Task Force

- 14.00 Welcome statement by **Mr Martin Hlaváček MEP***
- 14.05 Opening statement 'The priorities of the Czech EU Presidency and its commitment to greener European farming', by **H.E. Ing. Zdeněk Nekula***, Minister of Agriculture of the Czech Republic
- 14.15 Introduction of speakers by **Prof. Mark Eyskens***, former Prime Minister of Belgium and Chair, PA International Foundation
- 14.20 'The Sustainable Use of Plant Protection Products Regulation (SUR) and how to achieve fast-track biocontrol authorisation. Can we wait for a Reg. 1107/2009 revision? Do we need a new guideline? What should be in it?', by European Commissioner for Health and Food Safety **Dr Stella Kyriakides (invited)**
- 14.30 'The hidden cost of pesticides use on human health and the environment: why the transition has to start now', by **Mr David Cary***, Advisor, Microbial Plant Protection Products Task Force; Member of the Board PAN Europe
- 14.40 'Practical consequences of the Sustainable Use Regulation and the four Implementing Regulations for biocontrol and what else is needed?', by **Mr José Carvalho***, Regional Representative Europe and Middle East, Certis Biologicals; Member of the International Biocontrol Manufacturers Association
- 14.45 'Practical consequences of the Sustainable Use Regulation for Biopreparáty', by **Mr Martin Suchánek***, CEO Biopreparáty; Member of the International Biocontrol Manufacturers Association and the Microbial Plant Protection Products Task Force
